

Both paid the same

– which E-collar reflects your level of care?

Choose BUSTER Premium for Premium Care

BUSTER Premium Benefits

Markets your clinic

BUSTER Premium is an excellent way of showing customers you provide premium care

From minutes to seconds

The time of assembling and application of the collar has been reduced from minutes to seconds

Great comfort

The banding around the outer edge will not mark or scrape furniture and it serves as a sound-absorbing feature to the dog

Safety and perfect fit

The collar is provided with extra neoprene and Velcro closing for safety and perfect fit

Soft, flexible and comfortable perforated neoprene

The collar is provided with soft, flexible and comfortable perforated neoprene

Avoid skin irritation

The banding around the inner edge provides better comfort and prevents skin irritation

Assembled collar ready to use

The collar is easy to fasten. You simply insert the dog's head into the collar and close the Velcro

Easy handling

The collar has a safe and easy Velcro closing

No need for fastening gauze strap or collar

The close-fitting perforated neoprene make the use of collar or fastening gauze straps unnecessary in the cage after surgery

Anatomic cut

The anatomic cut of the PP material follows the curve of the dog's neck and provides comfort to the dog during sleep or rest. The cut also eases the application for the care taker

Thought-through design ready to use
